

WORKSHOP PROGRAM

14:30-19:00 **WORKSHOP “New materials for clean catalytic processes”**

14:30-14:45 **Workshop Registration**

14:45-15:00 **Welcome**

Dr. Javier García-Martínez (University of Alicante, Spain)

14:50-15:00 **The WAVES project: Introduction and overview of the Project**

Prof. Kostas Triantafyllidis (CERTH, Greece)

15:00-15:30 **New catalytic formulations for biomass fast pyrolysis**

Prof. Kostas Triantafyllidis (CERTH, Greece)

15:30-16:00 **Introduction of mesoporosity in Zeolites: A variety of alternatives**

Dr. Javier García-Martínez, Universidad de Alicante (Spain).

16:00-16:30 **Zeolites for methanol-to-hydrocarbons conversion**

Dr. Leila Negahdar, Universiteit Utrecht (The Netherlands).

16:30-17:00 **COFFEE BREAK**

17.00-17.30 **Rational catalyst design for complex mixtures conversion: from conventional to renewable resources**

Prof. Joris Thybaut, Universiteit Gent (Belgium).

17.30-18.00 **Crystal growth in confined nanospace**

Dr. Joaquín Silvestre, Universidad de Alicante (Spain)

18:00-18:30 **Opportunities for catalysis by nanocarbon materials**

Prof. Gabriele Centi, Università degli Studi di Messina (Italy)

18:30-18:50 **Discussions**

18:50 – 19:00 **End of the workshop**
